

9. Elementary Special Services Report

May 2018

The end of the school year is approaching!

Special Education-

We have a meeting scheduled with the Special Ed Department on May 16th. If you have any concerns, please let me know so that they can be addressed.

Progress Monitoring- Dates have not been given yet for progress reports to be completed. Ask your lead teachers if they have heard anything so that you can stay on top of it. They will probably be due before the last week of school so start data collection now. You should be collecting data all quarter long and not wait until the end of the quarter.

PASA: It is complete! Great job to all of our students! Administering the test becomes more and more computer oriented. I have requested training for next year, so we are all doing it the most efficient way we can.

ESY- June 18th-July 26th

Some buildings have received ESY information as far as location, but it has not been confirmed. Parent information will go out soon. Case managers with students that attend ESY should have received information on scanning documents and adding information to ESY spreadsheets. Talk to your administrators for time to get this task completed. It is different than what we have done in the past and is time consuming.

They are still looking for teachers to teach during ESY. Contact your program coordinator if you are interested.

ESL-

-Ellevation progress reports are due every quarter. Thank you for completing them.

Please reach out to your ESL teachers to request a meeting to discuss their progress.

If a student was exited from ESL, you will still need to complete an ellevation progress report for 2 years after they are exited. This will provide information to support the student being exited, or the need for more ESL services.
